

Jinnah University for Women

Department of Computer Science & Software Engineering

Aevion.AI

Agent for educators

The platform generates professional LinkedIn posts, drafts formal emails, creates quizzes from lecture materials, and automates presentation slide generation. It converts PDFs into concise slides, merges multiple slide decks, and summarizes key concepts. Intelligent scheduling agents track deadlines, manage timetables, and issue reminders to ensure timely task completion.

By leveraging multi-agent intelligence, Aevion.AI reduces manual effort, enhances content consistency, and allows users to focus on creativity, engagement, and achieving meaningful academic and professional outcomes.
